VOLUME I, NUMBER 4

APRIL, 1980

The analysis of our April data reflects an increase in total sales of food and beverage of 7.8 percent over April 1980. Total costs of food and beverage rose 7.7 percent over the same period last year, and payroll costs rose by a reported 5.9 percent. The average receipt per cover declined 8.5 percent from last month, but rose 4.7 percent from the same month last year.

On a year-to-date basis, total food and beverage sales rose 6.3 percent over the same period last year, supported by a 10.5 percent beverage sales increase. For the first four months of 1981, total sales of food and beverage have increased at a quicker pace than the total cost of food and beverage, indicating improved gross margins for the restaurants in our survey.

The largest restaurants in our survey, those with 242 or more seats, reported the highest April average receipt per cover, $12.10, followed by an $11.45 per cover ticket in the by single-unit operations. On a year-to-date basis, the South Central region led the country with the highest average receipt per cover, $9.51, followed by $9.06 in the West.

Productivity increased per full-time employee, with $177.07 more in sales this month than a year ago, an 8.8 percent rise. This increase was led by the 23.3 percent increase in Southeast properties and the 16.8 percent rise in Limited Menu-Tableservice restaurants.
